

MCPEEK'S DODGE OF ANAHEIM

Anaheim, California

CLIENT: McPeek's Dodge

DESCRIPTION: McPeek's Dodge needed expanded offices, and an enlarged showroom for their existing facility, with the new building needing to conform to Chrysler's design standards. GAA created a design that fulfilled all the client's needs, and satisfied Chrysler's standards. The resulting site included the 10,500 square feet of office/parts/showroom, a lot displaying nearly 200 vehicles, and two service buildings with 55 bays.

Portions of the existing showroom and service area were preserved and incorporated for value.
